SOFTWARE TESTING / QUALITY ASSURANCE

SauceDemo (Swag Labs) QA Project

Test Execution and Defect Report

Student name	Malaika Fatima
Student ID	B22110106036
Course	CSSE 604
Instructor	Sir Hussain Saleem
Application	SauceDemo / Swag Labs - https://www.saucedemo.com/
Testing period	05 - 09 October 2026
Evaluation	Monday, 12 October 2026
Report format	Defect reports follow the standard defect-report template in W. E. Lewis, Software Testing and Continuous Quality Improvement

Table of Contents

Bug summary 9

7. Defect Reports **11**

SD-BUG-001: Order can be placed with an empty cart ($0.00 order completed) 12
SD-BUG-002: Checkout form accepts whitespace-only values for all required fields 13
SD-BUG-003: No format validation on name and postal code fields (numbers and symbo 14
SD-BUG-004: No maximum length on checkout text fields 15
SD-BUG-005: Product URL with out-of-range ID shows "ITEM NOT FOUND" priced "$√-1" 16
SD-BUG-006: After "Reset App State" product buttons still show "Remove" 17
SD-BUG-007: Cart is not cleared on Logout; next user who logs in inherits it 18
SD-BUG-008: Checkout information step can be skipped by opening the overview URL d 19
SD-BUG-009: Session expires 10 minutes after login even while the user is active 20
SD-BUG-010: All product images show the same dog picture 21
SD-BUG-011: Sorting has no effect 22
SD-BUG-012: Three products cannot be added to the cart 23
SD-BUG-013: Three products cannot be removed after being added 24
SD-BUG-014: Clicking a product opens a different product's details 25
SD-BUG-015: Typing in Last Name overwrites First Name; checkout cannot continue 26
SD-BUG-016: Order overview doubles the item total 27
SD-BUG-017: Cart is not emptied after the order is finished 28
SD-BUG-018: About menu link opens a 404 error page 29
SD-BUG-019: Sorting shows "Sorting is broken!" alert and does not sort 30
SD-BUG-020: Add to cart / Remove throw errors for half of the products 31
SD-BUG-021: Last Name cannot be entered but checkout still proceeds without it 32
SD-BUG-022: Finish button does not complete the order 33
SD-BUG-023: Product detail description fails to render 34
SD-BUG-024: Inventory page freezes ~5 seconds on login and on every sort change 35
SD-BUG-025: Inventory shows random prices that change on refresh and differ from t 36
SD-BUG-026: First product shows the wrong image 37
SD-BUG-027: Header icons and product controls are misaligned 38
SD-BUG-028: Phantom item in cart makes the checkout overview fail to render 39
SD-BUG-029: Product name uses developer/test text "Test.allTheThings() T-Shirt (Red)" 40
SD-BUG-030: Login inputs have no labels (placeholder text only) 41

Appendix A - Features List of the Application **42**

Appendix B - Tools Used **42**

Appendix C - Testing Techniques Used **42**

Appendix D - Helpful Internet Links **43**

Appendix E - Limitations **43**

1. Project Objective

The objective of this project is to evaluate the SauceDemo (Swag Labs) web store through structured manual and exploratory testing, identify reproducible defects, report each defect with evidence and an oracle, and record the techniques and tools used.

2. Scope of Testing

- Login and authentication (all six demo accounts)
- Inventory, product details and content
- Sorting, navigation menu and logout
- Cart operations and cart badge
- Checkout form validation
- Order overview and price/tax calculation
- Order completion
- Session handling, direct URL access and browser navigation
- UI, usability, responsive layout and basic accessibility
- Performance observation

Out of scope: load/stress testing, penetration testing and any attack on the hosted service.

3. Test Environment

Test dates	Session 1: Mon 05 Oct 2026, 19:30-21:45 PKT Session 2: Wed 07 Oct 2026, 20:00-22:15 PKT Session 3: Fri 09 Oct 2026, 18:45-20:30 PKT (regression re-runs)
Operating system	Windows 10 (64-bit)
Browser	Google Chrome Version 155.0.8059.40 (Official Build) (64-bit)
Screen resolution	1920 x 1080, 100% scaling (narrow-viewport checks with Chrome DevTools device toolbar, 375 x 667)
Device	Laptop
Application URL	https://www.saucedemo.com/
Tester	Malaika Fatima (Windows profile: millixm)
Application accounts used	standard_user, locked_out_user, problem_user, performance_glitch_user, error_user, visual_user (password: secret_sauce)

4. Execution Rules

- Every test is recorded as Pass or Fail with the actual result observed.
- A failed test is reported as a bug only after it was reproduced at least 3 times and an oracle (reason it is wrong) was identified.
- Each distinct bug has a unique ID and its own page.
- standard_user is used for the normal flow; special accounts are tested separately and the account is named in each bug.
- No unauthorised security attacks or destructive tests were performed.

5. Test Case Execution Log

124 test cases executed (100 planned cases, 2 additional scripted cases and 21 exploratory cases). Failed cases reference the bug ID that documents them.

A. Login and Authentication

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
TC-001	Login with valid credentials (standard_user / secret_sauce)	Inventory page opens.	Products page opened with 6 products.	Pass	-
TC-002	Login with incorrect password	Login rejected with an error.	"Epic sadface: Username and password do not match any user in this service" shown.	Pass	-
TC-003	Login with incorrect username	Login rejected.	Same mismatch error shown; no login.	Pass	-
TC-004	Submit both fields empty	Validation message.	"Epic sadface: Username is required" shown.	Pass	-
TC-005	Submit username empty	Username validation.	"Username is required" shown.	Pass	-
TC-006	Submit password empty	Password validation.	"Epic sadface: Password is required" shown.	Pass	-
TC-007	Check password masking	Characters hidden.	Password field type=password; characters masked.	Pass	-
TC-008	Username case sensitivity (Standard_User)	Wrong case rejected.	Rejected with mismatch error.	Pass	-
TC-009	Password case sensitivity (Secret_Sauce)	Wrong case rejected.	Rejected with mismatch error.	Pass	-
TC-010	Login as locked_out_user	Access denied with clear reason.	"Sorry, this user has been locked out." shown.	Pass	-
TC-011	Unknown username	Rejected without revealing which field is wrong.	Generic mismatch message; no user enumeration.	Pass	-
TC-012	Press Enter to submit login	Login submits.	Enter key submitted the form.	Pass	-
TC-013	Click Login multiple times quickly	No duplicate navigation.	Single navigation to inventory.	Pass	-
TC-014	Dismiss error with X button	Error closes.	Error banner and red field icons cleared.	Pass	-
TC-015	Refresh login page	Page usable.	Page reloaded normally.	Pass	-
TC-015A	Check login fields have visible labels	Each input has a programmatic/visible label (WCAG 1.3.1, 3.3.2).	Inputs rely on placeholder text only; no <label> elements.	Fail	SD-BUG-030

B. Inventory, Product Details, Sorting and Menu

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
TC-016	Inventory loads after login	Product list appears.	Product list displayed.	Pass	-
TC-017	Verify product count	6 catalogue products.	6 products shown.	Pass	-
TC-018	Verify product names	Names readable and customer-appropriate.	"Test.allTheThings() T-Shirt (Red)" uses developer/code-style text.	Fail	SD-BUG-029
TC-019	Verify product descriptions	Descriptions match products.	Descriptions match.	Pass	-
TC-020	Verify prices	Visible, consistent $ format.	All prices in $x.xx format.	Pass	-
TC-021	Verify images	Images match products.	Images match (standard_user).	Pass	-

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
TC-022	Open product by name	Correct details.	Correct product detail page.	Pass	-
TC-023	Open product by image	Correct details.	Correct product detail page.	Pass	-
TC-024	Back to products	Inventory shown again.	Returned to inventory.	Pass	-
TC-025	Button labels reflect cart state after Reset App State	Buttons return to "Add to cart".	Badge cleared but buttons still show "Remove".	Fail	SD-BUG-006
TC-026	Sort Name A to Z	Ascending names.	Correct order.	Pass	-
TC-027	Sort Name Z to A	Descending names.	Correct order.	Pass	-
TC-028	Sort Price low to high	Ascending prices.	7.99 to 49.99.	Pass	-
TC-029	Sort Price high to low	Descending prices.	49.99 to 7.99.	Pass	-
TC-030	Change sort repeatedly	Each selection reorders.	Reordered each time.	Pass	-
TC-031	Equal prices (two $15.99 shirts)	Ordering not violated.	Both $15.99 items adjacent.	Pass	-
TC-032	Open burger menu	Menu opens.	Menu opened.	Pass	-
TC-033	Close menu	Menu closes.	Closed with X.	Pass	-
TC-034	About link	Opens Sauce Labs site.	saucelabs.com opened (standard_user).	Pass	-
TC-035	Logout	Session ends, login shown; user data cleared.	Login shown, but cart contents remain stored for the next user.	Fail	SD-BUG-007
TC-035A	Open product ID outside catalogue via URL (?id=6)	Friendly not-found page; no purchasable item.	"ITEM NOT FOUND" with price "$√-1" and an active Add to cart button.	Fail	SD-BUG-005

C. Cart and Product State

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
TC-036	Add one product	Badge = 1.	Badge shows 1.	Pass	-
TC-037	Add second product	Badge = 2; both in cart.	Badge 2; both listed.	Pass	-
TC-038	Add all products	All can be added.	All 6 added; badge 6.	Pass	-
TC-039	Remove from inventory	Badge and button update.	Updated correctly.	Pass	-
TC-040	Open cart after adding	Correct item.	Correct item shown.	Pass	-
TC-041	Cart product name	Matches selection.	Matches.	Pass	-
TC-042	Cart price	Matches listing.	Matches.	Pass	-
TC-043	Cart quantity	Quantity correct.	Shows 1 per item.	Pass	-
TC-044	Remove item in cart	Item disappears.	Removed.	Pass	-
TC-045	Remove final item	Cart empty.	Cart empty.	Pass	-
TC-046	Continue Shopping	Inventory opens.	Inventory opened.	Pass	-
TC-047	Return to cart	Remaining items correct.	Correct.	Pass	-
TC-048	Open empty cart	Empty cart shown clearly; checkout unavailable.	Empty list with no message; Checkout button still active.	Fail	SD-BUG-001
TC-049	Add from product detail	Item in cart.	Added.	Pass	-
TC-050	Remove from product detail	Item removed.	Removed.	Pass	-
TC-051	Badge vs cart contents	Counts agree.	Agree for normal items.	Pass	-
TC-051A	Add ITEM NOT FOUND (id=6) then open cart	Item cannot be added, or appears in cart.	Badge shows 1 but cart page lists nothing.	Fail	SD-BUG-005
TC-052	Refresh inventory after adding	Cart persists.	Persisted.	Pass	-
TC-053	Navigate inventory and cart	State consistent.	Consistent.	Pass	-

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
TC-054	Browser Back from cart	Sensible state.	Returned to inventory; badge correct.	Pass	-
TC-055	Browser Forward	Page returns.	Cart returned.	Pass	-

D. Checkout and Order Completion

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
TC-056	Checkout with item	Information form opens.	Opened.	Pass	-
TC-057	Checkout with empty cart	Checkout blocked.	Order completed with $0.00 total.	Fail	SD-BUG-001
TC-058	Submit empty form	Validation.	"First Name is required".	Pass	-
TC-059	No first name	Rejected.	Rejected.	Pass	-
TC-060	No last name	Rejected.	"Last Name is required".	Pass	-
TC-061	No postal code	Rejected.	"Postal Code is required".	Pass	-
TC-062	Valid details	Overview opens.	Opened.	Pass	-
TC-063	Numeric first name (12345)	Rejected as invalid name.	Accepted.	Fail	SD-BUG-003
TC-064	Numeric last name	Rejected.	Accepted.	Fail	SD-BUG-003
TC-065	Special characters in names (@#$%)	Rejected or sanitised.	Accepted.	Fail	SD-BUG-003
TC-066	Letters/special chars in postal code (ABC!!)	Format validation.	Accepted.	Fail	SD-BUG-003
TC-067	300-character first name	Length limit enforced.	Accepted; no maxlength.	Fail	SD-BUG-004
TC-068	300-character last name	Length limit enforced.	Accepted; no maxlength.	Fail	SD-BUG-004
TC-069	Spaces only in all fields	Rejected as empty.	Accepted; overview opened.	Fail	SD-BUG-002
TC-070	Overview item names	Match cart.	Match.	Pass	-
TC-071	Overview prices	Match cart.	Match.	Pass	-
TC-072	Subtotal	Sum of prices.	29.99 + 9.99 = $39.98 shown.	Pass	-
TC-073	Tax	8% of subtotal.	$3.20 shown.	Pass	-
TC-074	Total	Subtotal + tax.	$43.18 shown.	Pass	-
TC-075	Cancel on step one	Back to cart.	Returned to cart.	Pass	-
TC-076	Cancel on overview	Inventory, cart kept.	Inventory; cart kept.	Pass	-
TC-077	Finish	Completion page.	"Thank you for your order!".	Pass	-
TC-078	Confirmation message	Accurate.	Accurate.	Pass	-
TC-079	Cart after completion	Cart empty.	Empty; badge cleared.	Pass	-
TC-080	Refresh completion page	No duplicate order.	Same page; no change.	Pass	-

E. Session, Navigation and Browser Behaviour

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
TC-081	Open /inventory.html logged out	Redirect to login.	Redirected to login.	Pass	-
TC-082	Logout then Back	Protected page not restored.	Redirected to login.	Pass	-
TC-083	Refresh inventory	Loads.	Loaded.	Pass	-
TC-084	Product page refresh	Usable.	Usable.	Pass	-
TC-085	Cart refresh	Consistent.	Consistent.	Pass	-
TC-086	Second tab	Session shared.	Same session.	Pass	-

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
TC-087	Same page in new tab	Loads.	Loaded.	Pass	-
TC-088	Back repeatedly	Consistent.	Consistent.	Pass	-
TC-089	Forward repeatedly	Consistent.	Consistent.	Pass	-
TC-090	Open /checkout-step-two.html directly, skipping the info form	Redirect to step one; form must be completed.	Overview opened and order could be finished without customer details.	Fail	SD-BUG-008
TC-091	Keep using the site for >10 minutes after login	Active session continues.	Session cookie expires 10 min after login regardless of activity; redirected to login mid-checkout.	Fail	SD-BUG-009
TC-092	Broken-image check	No missing assets.	None (standard_user).	Pass	-
TC-093	Chrome Console errors	No errors on normal flow.	None for standard_user.	Pass	-
TC-094	Failed network requests	None tied to failures.	None for standard_user.	Pass	-

F. UI, Usability, Responsiveness, Accessibility

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
TC-095	Maximised window	Aligned.	Aligned.	Pass	-
TC-096	Narrow viewport (375px, DevTools)	Usable, no overflow.	Single column; usable.	Pass	-
TC-097	Button visibility	Distinguishable.	Clear.	Pass	-
TC-098	Text readability	Legible.	Legible.	Pass	-
TC-099	Tab navigation	Sensible order.	Logical order.	Pass	-
TC-100	Visible focus	Focus visible.	Focus outline shown.	Pass	-

G. Exploratory Tests with Special Accounts

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
EX-01	problem_user: inspect product images	Each image matches its product.	All 6 show the same dog image.	Fail	SD-BUG-010
EX-02	problem_user: change sort order	List reorders.	Dropdown changes, list order unchanged.	Fail	SD-BUG-011
EX-03	problem_user: add all products	All added.	Bolt T-Shirt, Red T-Shirt, Fleece Jacket cannot be added.	Fail	SD-BUG-012
EX-04	problem_user: remove added products	All removable.	Bike Light, Onesie, Backpack cannot be removed.	Fail	SD-BUG-013
EX-05	problem_user: open products by name	Correct product.	Opens the next product; Fleece Jacket opens ITEM NOT FOUND.	Fail	SD-BUG-014
EX-06	problem_user: fill checkout form	Last name accepted.	Typing in Last Name overwrites First Name; checkout blocked.	Fail	SD-BUG-015
EX-07	problem_user: overview totals (via direct URL)	Subtotal = sum of prices.	Subtotal doubled.	Fail	SD-BUG-016
EX-08	problem_user: cart after Finish	Cart emptied.	Items stay in cart.	Fail	SD-BUG-017
EX-09	problem_user: About link	Sauce Labs site.	Sauce Labs 404 page.	Fail	SD-BUG-018
EX-10	error_user: change sort	List reorders.	Alert "Sorting is broken!"; no sort.	Fail	SD-BUG-019
EX-11	error_user: add/remove all products	All add/remove.	Odd items fail to add; even items fail to remove (console errors).	Fail	SD-BUG-020
EX-12	error_user: enter last name	Text accepted.	Field stays empty (TypeError) but checkout continues without last name.	Fail	SD-BUG-021

Test ID	Scenario	Expected result	Actual result	Status	Bug ID
EX-13	error_user: click Finish	Order completes.	Nothing happens; stays on overview.	Fail	SD-BUG-022
EX-14	error_user: product detail description	Description shown.	"A description should be here, but it failed to render!"	Fail	SD-BUG-023
EX-15	performance_glitch_user: login and sort	Responds within ~1-2 s.	Page freezes ~5 s on load and on every sort change.	Fail	SD-BUG-024
EX-16	visual_user: compare prices	Inventory = cart price.	Inventory prices random and change on refresh.	Fail	SD-BUG-025
EX-17	visual_user: product images	Correct images.	First product shows dog image.	Fail	SD-BUG-026
EX-18	visual_user: header and layout	Aligned controls.	Cart icon and menu icon displaced; button and text misaligned.	Fail	SD-BUG-027
EX-19	standard_user then problem_user without clearing	Each user starts with own cart.	Second user inherits previous user's cart.	Fail	SD-BUG-007
EX-20	Add ITEM NOT FOUND then checkout	Checkout prevented or works.	Overview page fails to render (blank).	Fail	SD-BUG-028
EX-21	locked_out_user: direct URL /inventory.html	Blocked.	Redirected to login.	Pass	-

6. Test Execution Summary

Total test cases executed	124
Passed	87
Failed	37
Blocked	0
Not run	0
Confirmed unique bugs	30
By severity	Critical 4, High 11, Medium 9, Low 6

Severity definitions

Severity	Meaning
Critical	Core workflow (purchase) cannot be completed, or wrong money amounts are shown.
High	Important function significantly affected or a session/security weakness.
Medium	Function incorrect but a workaround exists.
Low	Cosmetic, content or minor usability/accessibility issue.

Bug summary

Bug ID	Title	Account	Severity	Test case
SD-BUG-001	Order can be placed with an empty cart ($0.00 order completed)	standard_user	High	TC-048, TC-057
SD-BUG-002	Checkout form accepts whitespace-only values for all required fields	standard_user	Medium	TC-069
SD-BUG-003	No format validation on name and postal code fields (numbers and symbols accepted)	standard_user	Medium	TC-063 to TC-066
SD-BUG-004	No maximum length on checkout text fields	standard_user	Low	TC-067, TC-068
SD-BUG-005	Product URL with out-of-range ID shows "ITEM NOT FOUND" priced "$√-1" that can be added to cart	standard_user	Medium	TC-035A, TC-051A
SD-BUG-006	After "Reset App State" product buttons still show "Remove"	standard_user	Medium	TC-025
SD-BUG-007	Cart is not cleared on Logout; next user who logs in inherits it	standard_user, problem_user	High	TC-035, EX-19
SD-BUG-008	Checkout information step can be skipped by opening the overview URL directly	standard_user	High	TC-090
SD-BUG-009	Session expires 10 minutes after login even while the user is active	standard_user	Medium	TC-091
SD-BUG-010	All product images show the same dog picture	problem_user	Medium	EX-01
SD-BUG-011	Sorting has no effect	problem_user	Medium	EX-02
SD-BUG-012	Three products cannot be added to the cart	problem_user	High	EX-03
SD-BUG-013	Three products cannot be removed after being added	problem_user	High	EX-04
SD-BUG-014	Clicking a product opens a different product's details	problem_user	High	EX-05
SD-BUG-015	Typing in Last Name overwrites First Name; checkout cannot continue	problem_user	Critical	EX-06
SD-BUG-016	Order overview doubles the item total	problem_user	Critical	EX-07
SD-BUG-017	Cart is not emptied after the order is finished	problem_user	High	EX-08
SD-BUG-018	About menu link opens a 404 error page	problem_user	Low	EX-09
SD-BUG-019	Sorting shows "Sorting is broken!" alert and does not sort	error_user	Medium	EX-10

Bug ID	Title	Account	Severity	Test case
SD-BUG-020	Add to cart / Remove throw errors for half of the products	error_user	High	EX-11
SD-BUG-021	Last Name cannot be entered but checkout still proceeds without it	error_user	High	EX-12
SD-BUG-022	Finish button does not complete the order	error_user	Critical	EX-13
SD-BUG-023	Product detail description fails to render	error_user	Low	EX-14
SD-BUG-024	Inventory page freezes ~5 seconds on login and on every sort change	performance_glitch_user	High	EX-15
SD-BUG-025	Inventory shows random prices that change on refresh and differ from the product page	visual_user	Critical	EX-16
SD-BUG-026	First product shows the wrong image	visual_user	Medium	EX-17
SD-BUG-027	Header icons and product controls are misaligned	visual_user	Low	EX-18
SD-BUG-028	Phantom item in cart makes the checkout overview fail to render	standard_user	High	EX-20
SD-BUG-029	Product name uses developer/test text "Test.allTheThings() T-Shirt (Red)"	All accounts	Low	TC-018
SD-BUG-030	Login inputs have no labels (placeholder text only)	N/A (logged out)	Low	TC-015A

7. Defect Reports

One defect per page, using the standard defect report template (Lewis). Screenshots were captured on the tester's laptop during execution.

SD-BUG-001: Order can be placed with an empty cart ($0.00 order completed)

Defect ID	SD-BUG-001
Title	Order can be placed with an empty cart ($0.00 order completed)
Project / Application	SauceDemo (Swag Labs)
Module	Cart / Checkout
Severity	High
Priority	High
Status	New
Date found	05 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	standard_user
Related test case	TC-048, TC-057
Preconditions	Logged in; cart is empty (badge not shown).
Steps to reproduce	1. Click the cart icon. 2. Observe the Checkout button is enabled although no items are listed. 3. Click Checkout, enter First Name "Ali", Last Name "Khan", Postal Code "75270", click Continue. 4. On the overview page click Finish.
Expected result	Checkout should be disabled or show "Your cart is empty" when the cart has no items. No order should be created.
Actual result	Overview shows Item total $0.00, Tax $0.00, Total $0.00. Clicking Finish shows "Thank you for your order!".
Oracle (why this is a bug)	Business rule: an order must contain at least one product. Every e-commerce checkout (and the app's own cart badge logic) treats an empty cart as nothing to purchase; confirming a $0 order creates a meaningless order record.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Negative testing, Boundary value analysis (0 items), State transition testing

Screenshot evidence

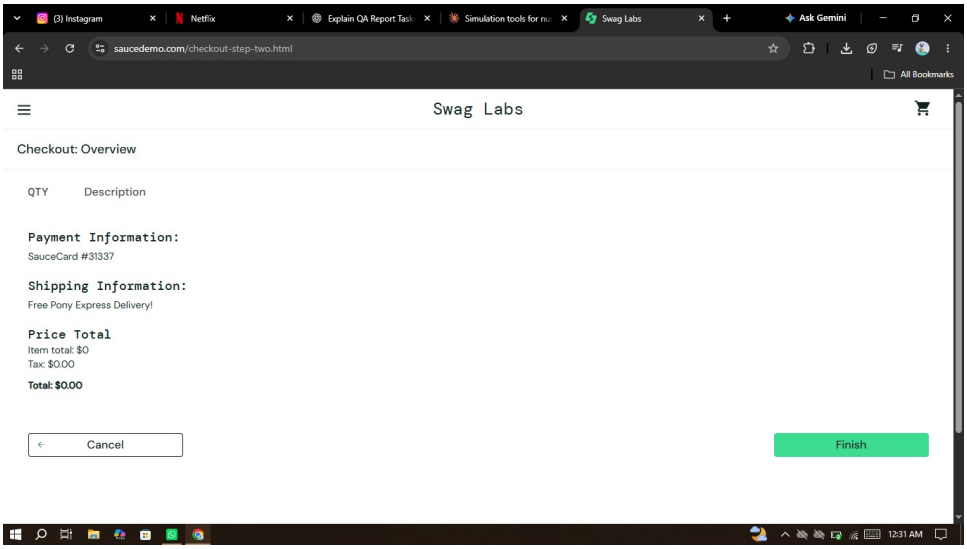

Figure SD-BUG-001: Empty cart page with active Checkout button; overview showing $0.00; completion page.

SD-BUG-002: Checkout form accepts whitespace-only values for all required fields

Defect ID	SD-BUG-002
Title	Checkout form accepts whitespace-only values for all required fields
Project / Application	SauceDemo (Swag Labs)
Module	Checkout - Your Information
Severity	Medium
Priority	High
Status	New
Date found	05 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	standard_user
Related test case	TC-069
Preconditions	One item in cart; on Checkout: Your Information page.
Steps to reproduce	1. Click First Name and type 3 spaces. 2. Type 3 spaces in Last Name. 3. Type 3 spaces in Postal Code. 4. Click Continue.
Expected result	Values made only of spaces should be treated as empty and show "First Name is required".
Actual result	Form is accepted and Checkout: Overview opens with blank customer details.
Oracle (why this is a bug)	The fields are marked required; the app's own empty-field validation proves the requirement. A string of spaces carries no data, so it should fail the same rule (input should be trimmed before validation).
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Equivalence partitioning, Negative testing

Screenshot evidence

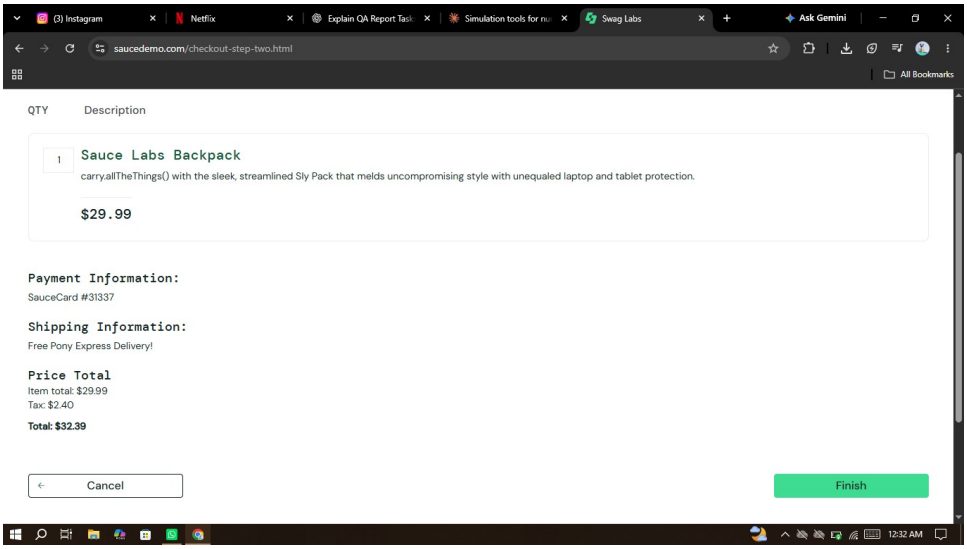

Figure SD-BUG-002: Form filled with spaces (use DevTools Elements to show value=" ") and the overview page that follows.

SD-BUG-003: No format validation on name and postal code fields (numbers and symbols accepted)

Defect ID	SD-BUG-003
Title	No format validation on name and postal code fields (numbers and symbols accepted)
Project / Application	SauceDemo (Swag Labs)
Module	Checkout - Your Information
Severity	Medium
Priority	Medium
Status	New

Test account	standard_user
Related test case	TC-063 to TC-066
Preconditions	One item in cart; on Checkout: Your Information page.
Steps to reproduce	1. Enter First Name "12345". 2. Enter Last Name "@#$%^". 3. Enter Postal Code "ABC!!". 4. Click Continue.
Expected result	Names should allow letters (and common characters such as space, hyphen, apostrophe); postal code should allow digits/valid postal format. Invalid input should show a field-specific error.
Actual result	All values accepted and overview opens.
Oracle (why this is a bug)	A shipping order needs a deliverable name and postal code. "12345" is not a person's name and "ABC!!" is not a postal code in any country; accepting them means invalid shipping data reaches the order.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Equivalence partitioning, Negative testing, Decision table testing

Screenshot evidence

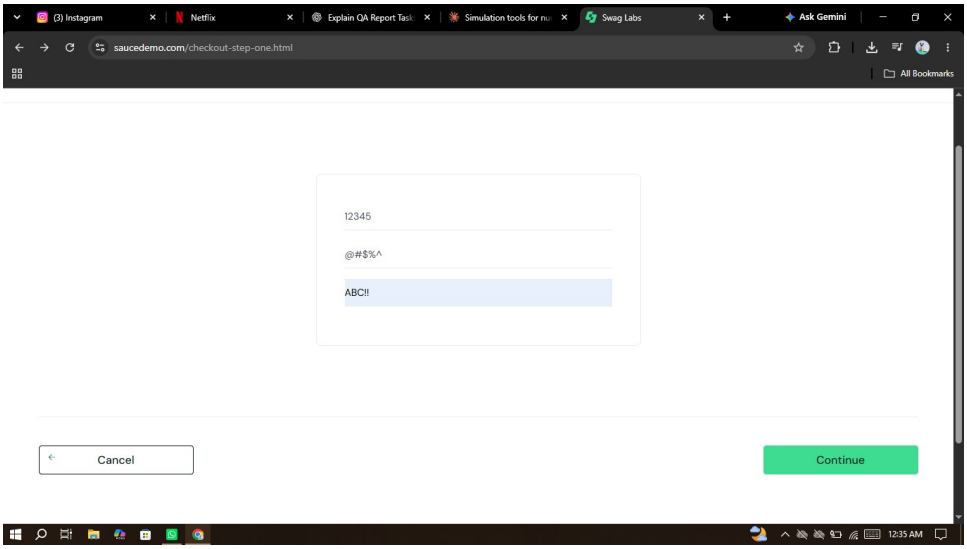

Figure SD-BUG-003: Form with invalid values and the overview page.

SD-BUG-004: No maximum length on checkout text fields

Defect ID	SD-BUG-004
Title	No maximum length on checkout text fields
Project / Application	SauceDemo (Swag Labs)
Module	Checkout - Your Information
Severity	Low
Priority	Low
Status	New
Date found	05 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	standard_user
Related test case	TC-067, TC-068
Preconditions	One item in cart; on Checkout: Your Information page.
Steps to reproduce	1. Paste a 300-character string into First Name. 2. Paste a 300-character string into Last Name. 3. Enter a valid postal code and click Continue.
Expected result	Fields should enforce a sensible limit (e.g. 50 characters) and stop extra input.
Actual result	All 300 characters accepted; no maxlength attribute exists on the inputs (checked in DevTools).
Oracle (why this is a bug)	Boundary rule: databases and shipping labels have field limits; unlimited input can be truncated or rejected later in the order process.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Boundary value analysis

Screenshot evidence

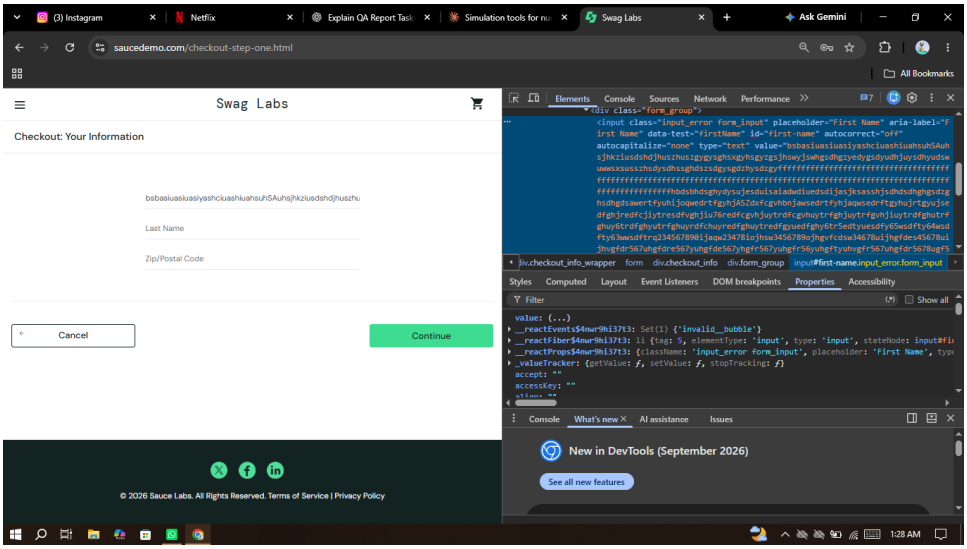

Figure SD-BUG-004: Long text in field and DevTools Elements panel showing the input without maxlength.

SD-BUG-005: Product URL with out-of-range ID shows "ITEM NOT FOUND" priced "$√-1" that can be added to cart

Defect ID	SD-BUG-005
Title	Product URL with out-of-range ID shows "ITEM NOT FOUND" priced "$√-1" that can be added to cart
Project / Application	SauceDemo (Swag Labs)
Module	Product Details
Severity	Medium
Priority	Medium
Status	New
Date found	05 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	standard_user
Related test case	TC-035A, TC-051A
Preconditions	Logged in, cart empty.
Steps to reproduce	1. Open https://www.saucedemo.com/inventory-item.html?id=6 2. Observe the page title, price and button. 3. Click Add to cart. 4. Open the cart.
Expected result	An invalid ID should show a clear not-found message (or redirect to Products) with no price and no Add to cart button.
Actual result	Page shows "ITEM NOT FOUND", a joke telephone-recording description, price "$√-1" and a working Add to cart button. After adding, badge shows 1 but the cart lists no item.
Oracle (why this is a bug)	Consistency: the badge and cart contents must agree, and a non-existent product must not be purchasable. "√-1" is not a valid price.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Exploratory testing (URL manipulation), Error guessing

Screenshot evidence

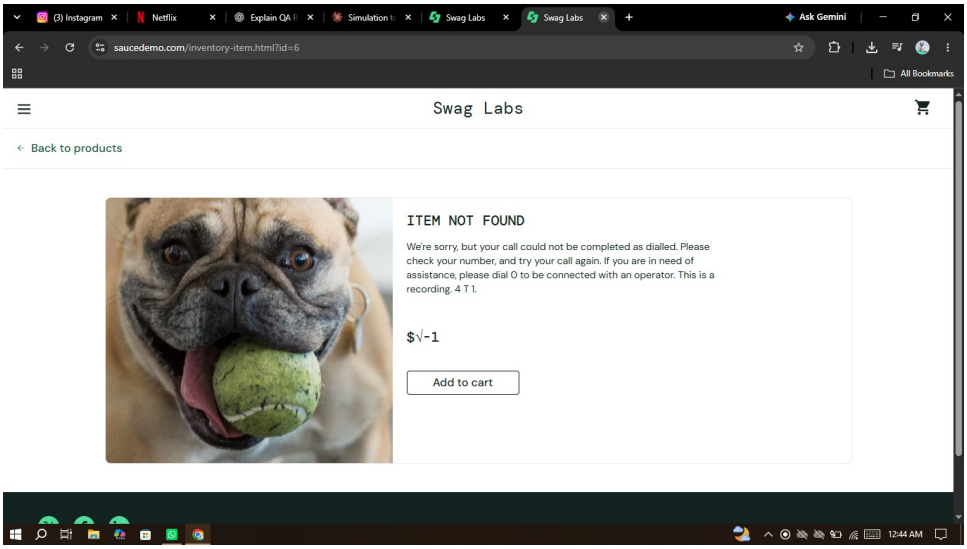

Figure SD-BUG-005: Item-not-found page with √-1 price; badge 1 with empty cart.

SD-BUG-006: After "Reset App State" product buttons still show "Remove"

Defect ID	SD-BUG-006
Title	After "Reset App State" product buttons still show "Remove"
Project / Application	SauceDemo (Swag Labs)
Module	Inventory / Menu
Severity	Medium
Priority	Medium
Status	New
Date found	05 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	standard_user
Related test case	TC-025
Preconditions	Logged in.
Steps to reproduce	1. Add Sauce Labs Backpack and Bike Light (buttons change to Remove; badge 2). 2. Open menu and click Reset App State. 3. Close the menu and look at the two product buttons.
Expected result	Cart is emptied and both buttons change back to "Add to cart".
Actual result	Badge disappears (cart is empty) but both buttons still read "Remove" until the page is refreshed. Clicking Remove does nothing visible.
Oracle (why this is a bug)	Consistency rule: the button label must reflect cart state (as it does everywhere else in the app). The UI now contradicts the cart badge.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	State transition testing, UI testing

Screenshot evidence

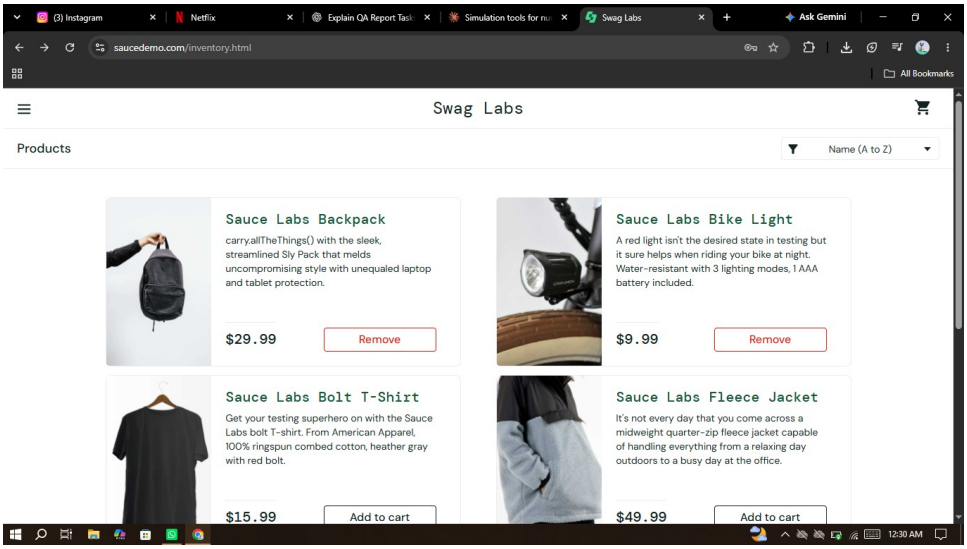

Figure SD-BUG-006: Products page after reset: no badge, two Remove buttons.

SD-BUG-007: Cart is not cleared on Logout; next user who logs in inherits it

Defect ID	SD-BUG-007
Title	Cart is not cleared on Logout; next user who logs in inherits it
Project / Application	SauceDemo (Swag Labs)
Module	Session / Cart
Severity	High
Priority	High
Status	New
Date found	05 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	standard_user, problem_user
Related test case	TC-035, EX-19
Preconditions	Shared browser profile.
Steps to reproduce	1. Log in as standard_user and add 2 products (badge 2). 2. Open menu and click Logout. 3. Log in as problem_user (or standard_user again). 4. Look at the cart badge and open the cart.
Expected result	Logout should end the session and clear that user's data; a new login should start with an empty cart.
Actual result	The new session shows badge 2 and the previous user's items. Cart is kept in localStorage key "cart-contents" which logout does not remove (DevTools > Application > Local Storage).
Oracle (why this is a bug)	Privacy and session rule: one user's data must not be visible to another user on the same device. Logout removes only the session cookie.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Security/session testing, State transition testing

Screenshot evidence

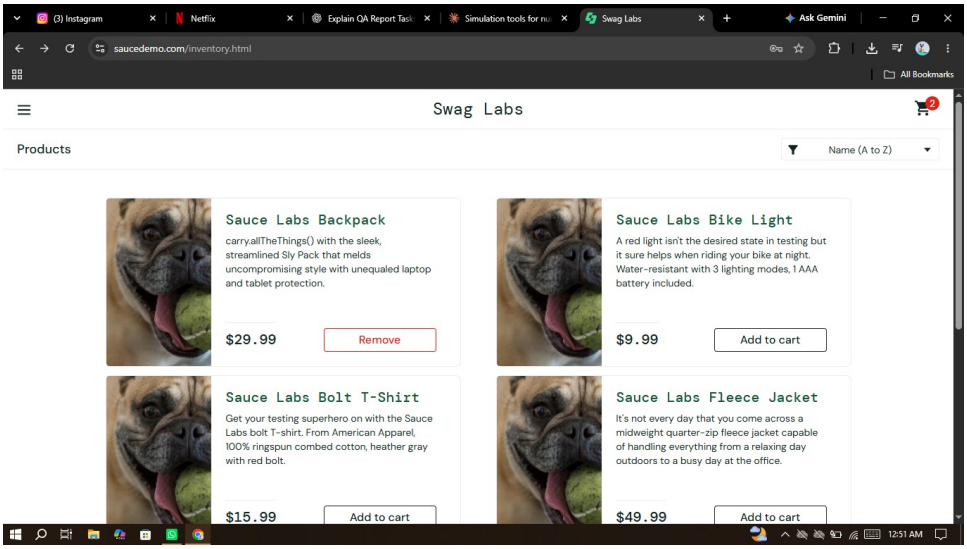

Figure SD-BUG-007: Badge after re-login as a different user; DevTools Local Storage showing cart-contents.

SD-BUG-008: Checkout information step can be skipped by opening the overview URL directly

Defect ID	SD-BUG-008
Title	Checkout information step can be skipped by opening the overview URL directly
Project / Application	SauceDemo (Swag Labs)
Module	Checkout
Severity	High
Priority	High
Status	New
Date found	05 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	standard_user
Related test case	TC-090
Preconditions	Logged in; at least one item in cart.
Steps to reproduce	1. From the cart, do NOT click Checkout. 2. Type https://www.saucedemo.com/checkout-step-two.html in the address bar. 3. Observe the overview page. 4. Click Finish.
Expected result	Direct access should redirect to Checkout: Your Information until valid details are submitted.
Actual result	Overview opens with totals, and Finish completes the order with no name or postal code entered.
Oracle (why this is a bug)	Workflow rule: shipping details are required (the form enforces them). Being able to finish without them bypasses the required validation entirely.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Security testing (forced browsing), State transition testing

Screenshot evidence

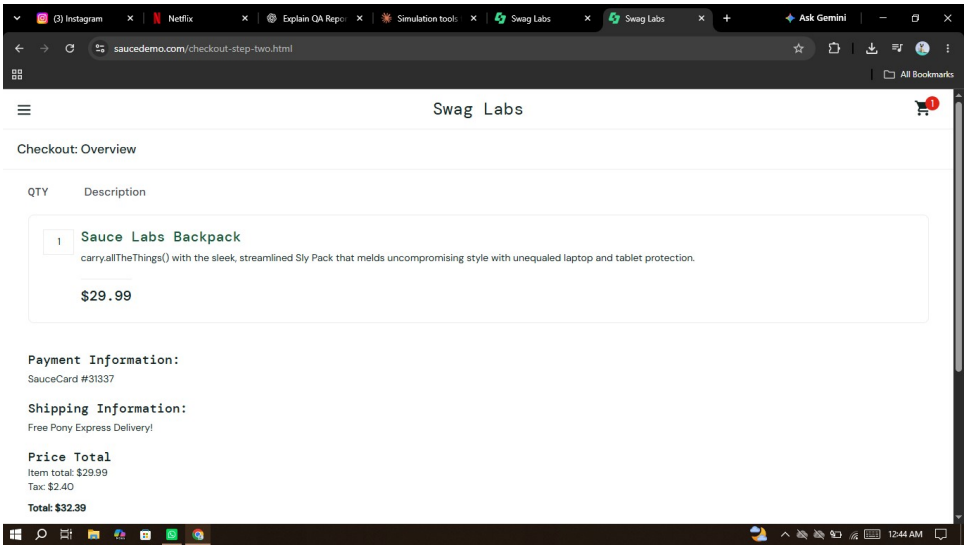

Figure SD-BUG-008: Address bar with step-two URL and the completion page.

SD-BUG-009: Session expires 10 minutes after login even while the user is active

Defect ID	SD-BUG-009
Title	Session expires 10 minutes after login even while the user is active
Project / Application	SauceDemo (Swag Labs)
Module	Session
Severity	Medium
Priority	Medium
Status	New
Date found	05 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	standard_user
Related test case	TC-091
Preconditions	Clock/timer ready.
Steps to reproduce	1. Log in and note the time. 2. Keep browsing and adding/removing items every minute. 3. At about 10 minutes after login, click a product or open the cart.
Expected result	An active user should stay logged in (sliding timeout), or receive a warning before the session ends.
Actual result	Without warning the user is sent back to the login page. DevTools > Application > Cookies shows "session-username" with an expiry 10 minutes after login that is never extended.
Oracle (why this is a bug)	Usability/session rule: inactivity timeouts should measure inactivity, not time since login. Losing an in-progress checkout of an active user is a failure.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Session testing, Exploratory testing

Screenshot evidence

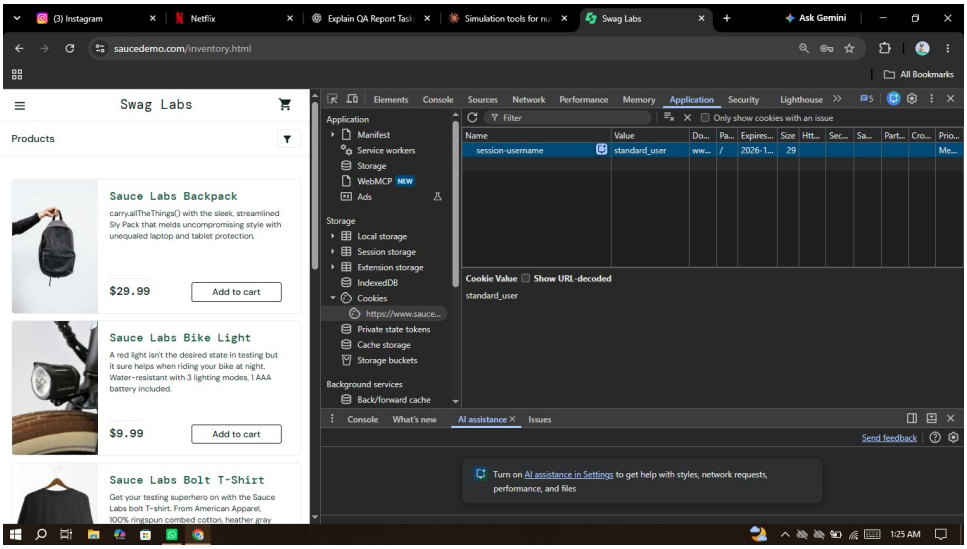

Figure SD-BUG-009: Cookie expiry in DevTools and login page reached mid-checkout.

SD-BUG-010: All product images show the same dog picture

Defect ID	SD-BUG-010
Title	All product images show the same dog picture
Project / Application	SauceDemo (Swag Labs)
Module	Inventory
Severity	Medium
Priority	Medium
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	problem_user
Related test case	EX-01
Preconditions	Logged in as problem_user.
Steps to reproduce	1. Log in as problem_user / secret_sauce. 2. Look at the six product images.
Expected result	Each product shows its own image (as for standard_user).
Actual result	All six products display the same dog image.
Oracle (why this is a bug)	Comparison oracle: standard_user shows correct, distinct images for the same products.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	UI testing, Comparison testing

Screenshot evidence

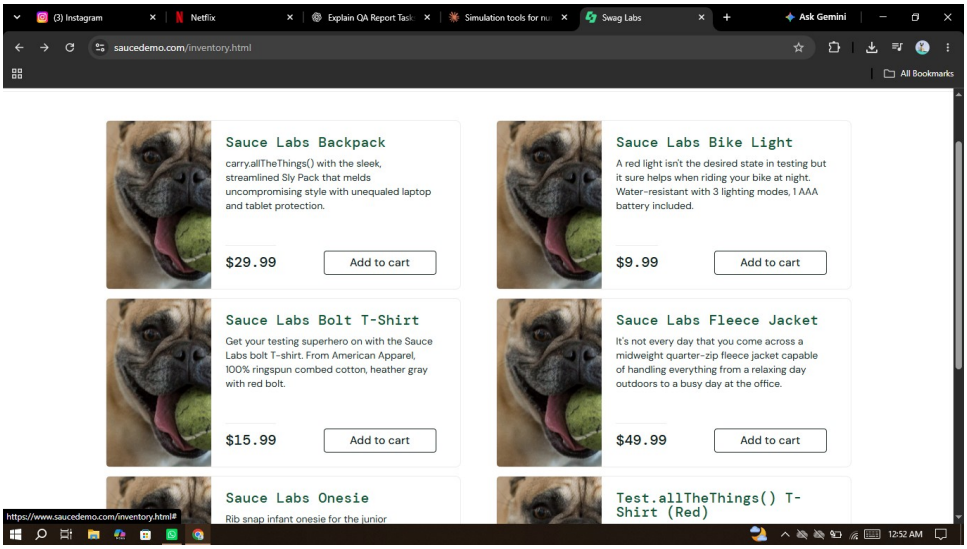

Figure SD-BUG-010: Inventory page as problem_user.

SD-BUG-011: Sorting has no effect

Defect ID	SD-BUG-011
Title	Sorting has no effect
Project / Application	SauceDemo (Swag Labs)
Module	Inventory - Sorting
Severity	Medium
Priority	Medium
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	problem_user
Related test case	EX-02
Preconditions	Logged in as problem_user.
Steps to reproduce	1. Open the sort dropdown. 2. Select Price (low to high). 3. Observe product order.
Expected result	Products reorder from $7.99 to $49.99.
Actual result	Products stay in the default A-Z order.
Oracle (why this is a bug)	Specification implied by the dropdown labels; works for standard_user.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Functional testing

Screenshot evidence

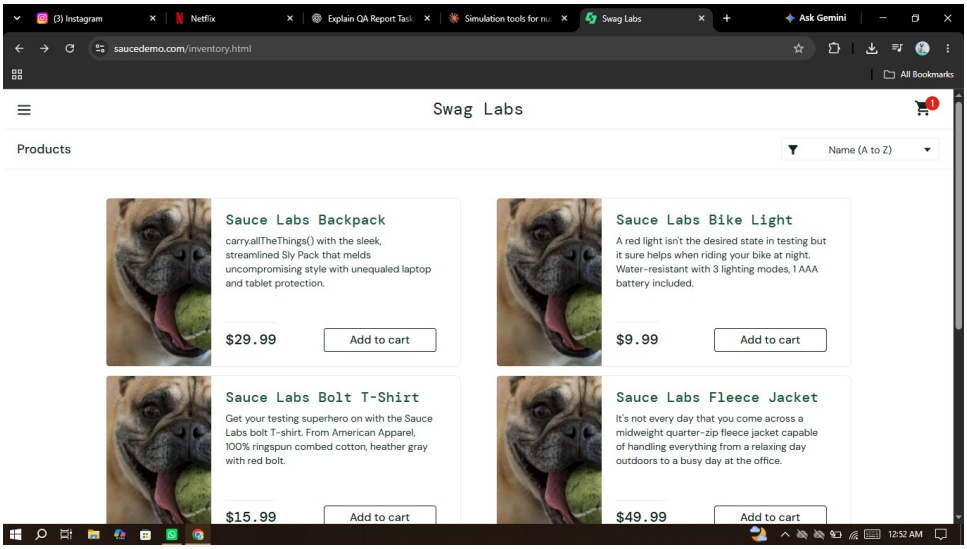

Figure SD-BUG-011: Dropdown showing Price (low to high) with unsorted list.

SD-BUG-012: Three products cannot be added to the cart

Defect ID	SD-BUG-012
Title	Three products cannot be added to the cart
Project / Application	SauceDemo (Swag Labs)
Module	Inventory / Cart
Severity	High
Priority	High
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	problem_user
Related test case	EX-03
Preconditions	Logged in as problem_user; cart empty.
Steps to reproduce	1. Click Add to cart on Sauce Labs Bolt T-Shirt. 2. Click Add to cart on Sauce Labs Fleece Jacket. 3. Click Add to cart on Test.allTheThings() T-Shirt (Red).
Expected result	Each click adds the item; button changes to Remove; badge increases.
Actual result	Nothing happens for these three products; badge unchanged.
Oracle (why this is a bug)	Core function: every listed product must be purchasable.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Functional testing, Equivalence partitioning

Screenshot evidence

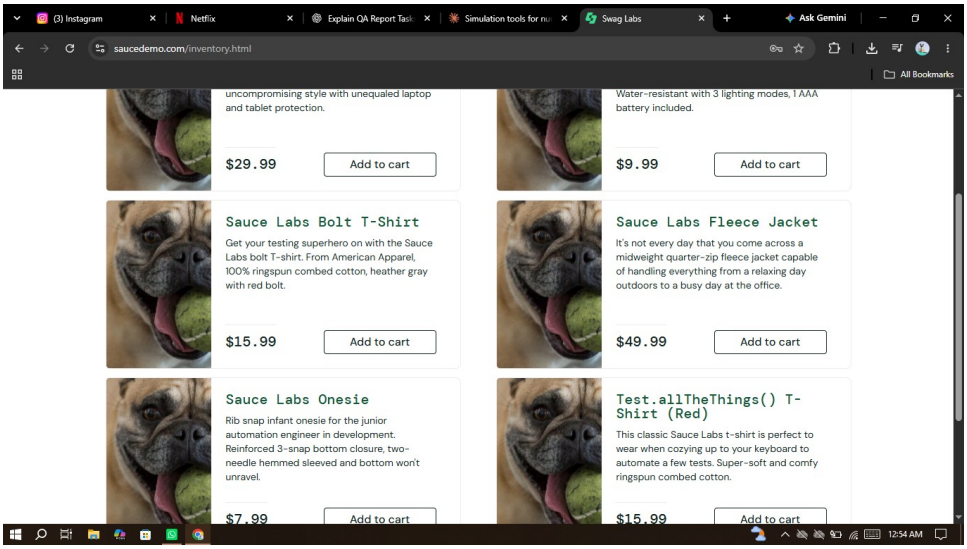

Figure SD-BUG-012: Products page after clicking, with no badge change.

SD-BUG-013: Three products cannot be removed after being added

Defect ID	SD-BUG-013
Title	Three products cannot be removed after being added
Project / Application	SauceDemo (Swag Labs)
Module	Inventory / Cart
Severity	High
Priority	High
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	problem_user
Related test case	EX-04
Preconditions	Logged in as problem_user.
Steps to reproduce	1. Add Sauce Labs Backpack, Bike Light and Onesie. 2. Click Remove on each.
Expected result	Items are removed and badge decreases.
Actual result	Remove does nothing on the products page; badge stays 3.
Oracle (why this is a bug)	A user must be able to undo adding an item; works for standard_user.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Functional testing, State transition testing

Screenshot evidence

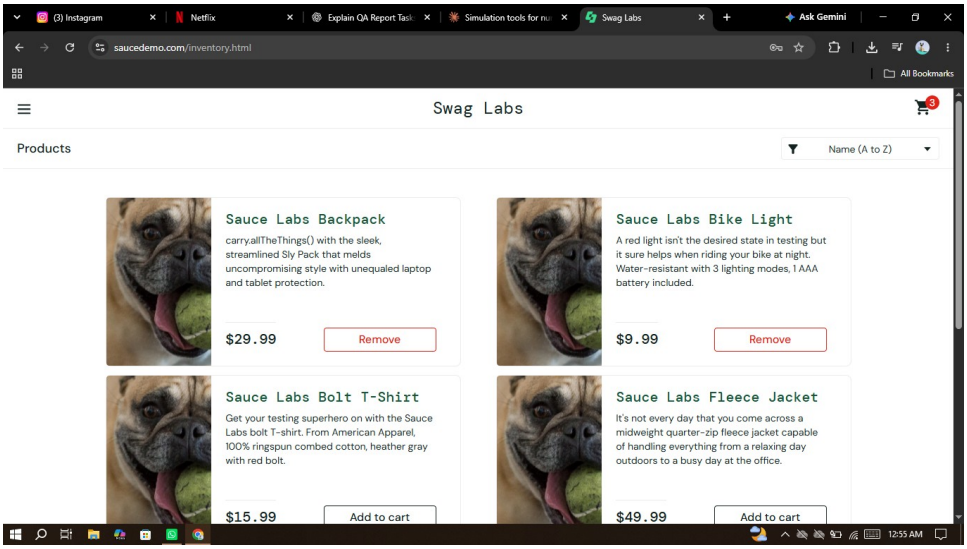

Figure SD-BUG-013: Products page with Remove buttons and unchanged badge.

SD-BUG-014: Clicking a product opens a different product's details

Defect ID	SD-BUG-014
Title	Clicking a product opens a different product's details
Project / Application	SauceDemo (Swag Labs)
Module	Product Details
Severity	High
Priority	High
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima

Test account	problem_user
Related test case	EX-05
Preconditions	Logged in as problem_user.
Steps to reproduce	1. Click the name "Sauce Labs Backpack". 2. Note the product shown. 3. Go back and click "Sauce Labs Fleece Jacket".
Expected result	The clicked product's details open.
Actual result	Backpack opens another product (link uses the next ID); Fleece Jacket opens "ITEM NOT FOUND".
Oracle (why this is a bug)	Name-to-detail consistency; correct for standard_user.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Functional testing, Exploratory testing

Screenshot evidence

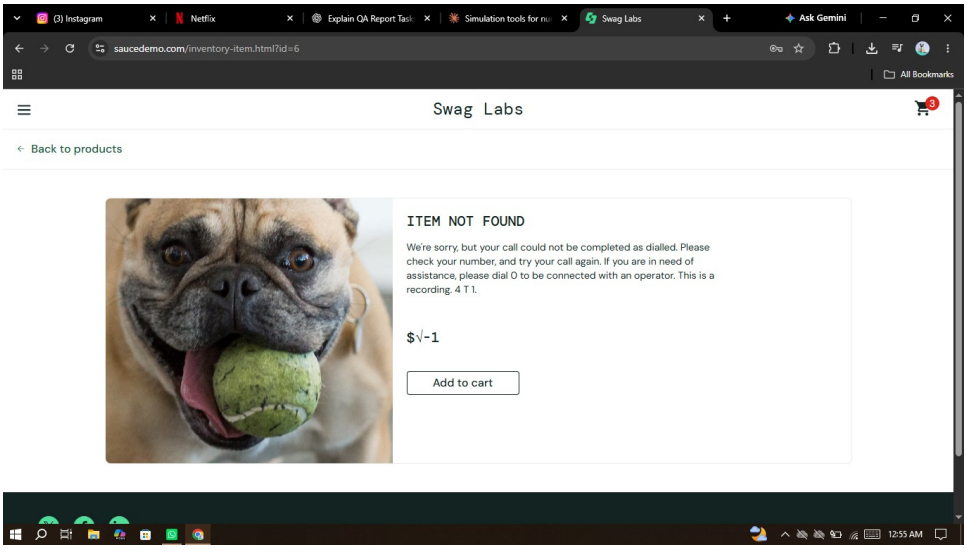

Figure SD-BUG-014: Inventory click and the wrong detail page.

SD-BUG-015: Typing in Last Name overwrites First Name; checkout cannot continue

Defect ID	SD-BUG-015
Title	Typing in Last Name overwrites First Name; checkout cannot continue
Project / Application	SauceDemo (Swag Labs)
Module	Checkout - Your Information
Severity	**Critical**
Priority	High
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	problem_user
Related test case	EX-06
Preconditions	Logged in as problem_user with one item (e.g. Backpack) in cart.
Steps to reproduce	1. Click Checkout. 2. Enter First Name "Ali". 3. Enter Last Name "Khan". 4. Enter Postal Code "75270" and click Continue.
Expected result	Overview page opens.
Actual result	Characters typed into Last Name replace the First Name value; Last Name stays empty and "Error: Last Name is required" blocks checkout.
Oracle (why this is a bug)	Each input must update only its own value. The purchase workflow cannot be completed at all: core workflow failure.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Functional testing, Negative testing

Screenshot evidence

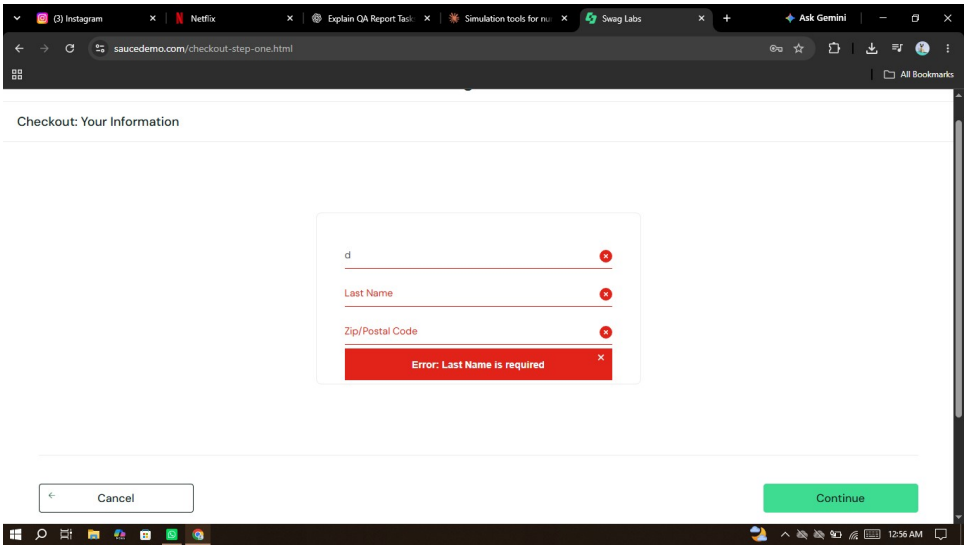

Figure SD-BUG-015: Form showing last name text in First Name field, and the error.

SD-BUG-016: Order overview doubles the item total

Defect ID	SD-BUG-016
Title	Order overview doubles the item total
Project / Application	SauceDemo (Swag Labs)
Module	Checkout - Overview
Severity	**Critical**
Priority	High
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	problem_user
Related test case	EX-07
Preconditions	Logged in as problem_user; Sauce Labs Backpack ($29.99) in cart. (Step one is blocked by SD-BUG-015, so reach overview by URL - see SD-BUG-008.)
Steps to reproduce	1. Open https://www.saucedemo.com/checkout-step-two.html 2. Read the item price and Item total.
Expected result	Item total $29.99, Tax $2.40, Total $32.39.
Actual result	Item total $59.98, Tax $4.80, Total $64.78 for a single $29.99 item.
Oracle (why this is a bug)	Calculation oracle: item total must equal the sum of listed item prices ($29.99 x 1).
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Functional testing, Calculation verification

Screenshot evidence

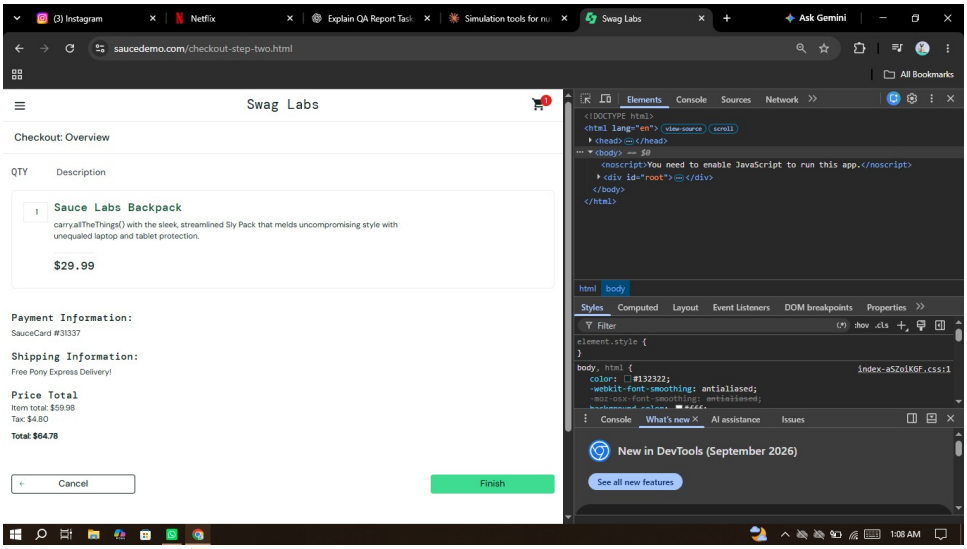

Figure SD-BUG-016: Overview with $29.99 item and $59.98 item total.

SD-BUG-017: Cart is not emptied after the order is finished

Defect ID	SD-BUG-017
Title	Cart is not emptied after the order is finished
Project / Application	SauceDemo (Swag Labs)
Module	Checkout - Complete
Severity	High
Priority	Medium
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	problem_user
Related test case	EX-08
Preconditions	problem_user with one item in cart, on overview page.
Steps to reproduce	1. Click Finish. 2. Observe badge on completion page. 3. Click Back Home and open cart.
Expected result	Cart is empty after a completed order.
Actual result	Badge still shows the items and they remain in the cart.
Oracle (why this is a bug)	Post-order state rule; standard_user's cart is cleared (TC-079).
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	State transition testing

Screenshot evidence

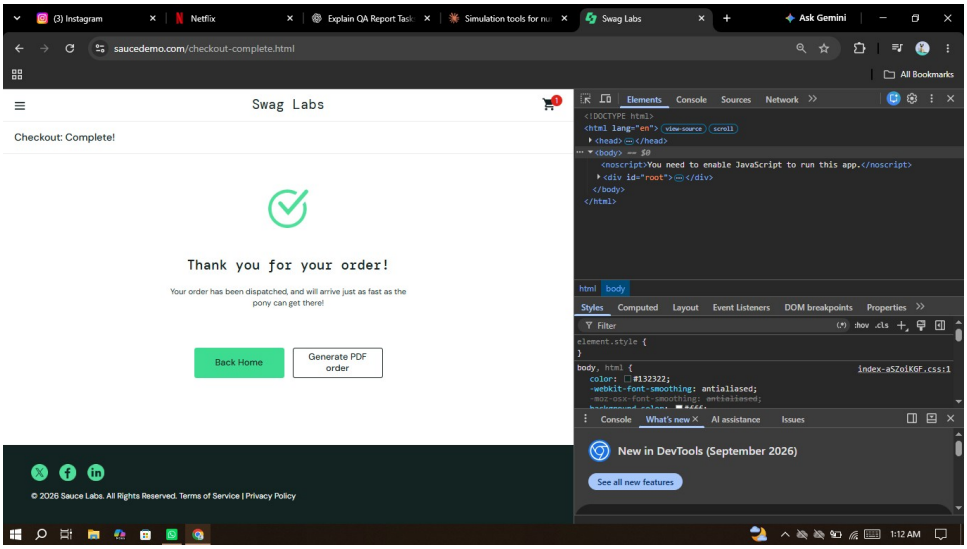

Figure SD-BUG-017: Completion page with badge still visible.

SD-BUG-018: About menu link opens a 404 error page

Defect ID	SD-BUG-018
Title	About menu link opens a 404 error page
Project / Application	SauceDemo (Swag Labs)
Module	Menu
Severity	Low
Priority	Low
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	problem_user
Related test case	EX-09
Preconditions	Logged in as problem_user.
Steps to reproduce	1. Open menu. 2. Click About.
Expected result	Sauce Labs home page opens.
Actual result	https://saucelabs.com/error/404 page is shown.
Oracle (why this is a bug)	Link purpose; works for standard_user.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Functional testing (navigation)

Screenshot evidence

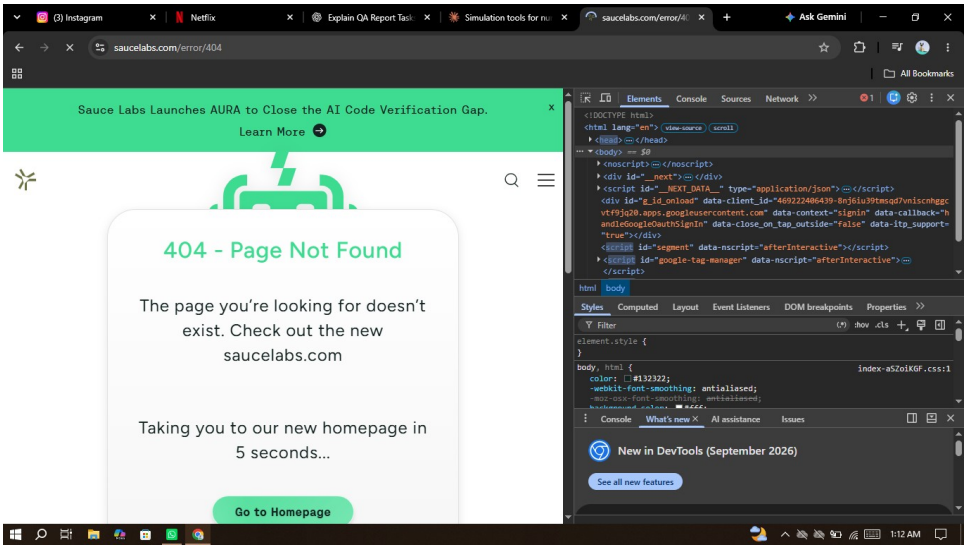

Figure SD-BUG-018: 404 page and address bar.

SD-BUG-019: Sorting shows "Sorting is broken!" alert and does not sort

Defect ID	SD-BUG-019
Title	Sorting shows "Sorting is broken!" alert and does not sort
Project / Application	SauceDemo (Swag Labs)
Module	Inventory - Sorting
Severity	Medium
Priority	Medium
Status	New
Date found	07 Oct 2026

Test account	error_user
Related test case	EX-11
Preconditions	Logged in as error_user; DevTools Console open.
Steps to reproduce	1. Click Add to cart on each of the six products. 2. Click Remove on each added product.
Expected result	Every product can be added and removed.
Actual result	Bolt T-Shirt, Red T-Shirt and Fleece Jacket fail to add; Bike Light, Onesie and Backpack fail to remove. Console shows "Failed to add item to the cart." / "Failed to remove item from cart."
Oracle (why this is a bug)	Core cart function; console errors confirm a code failure.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Functional testing, Console/log analysis

Screenshot evidence

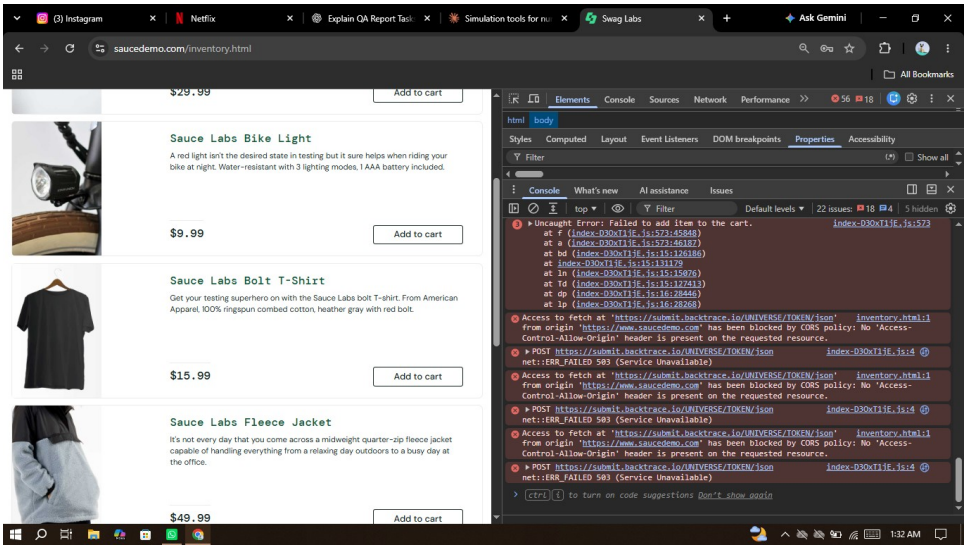

Figure SD-BUG-020: Console errors next to the products page.

SD-BUG-021: Last Name cannot be entered but checkout still proceeds without it

Defect ID	SD-BUG-021
Title	Last Name cannot be entered but checkout still proceeds without it
Project / Application	SauceDemo (Swag Labs)
Module	Checkout - Your Information
Severity	High
Priority	High
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	error_user
Related test case	EX-12
Preconditions	error_user with an item in cart; DevTools Console open.
Steps to reproduce	1. Click Checkout. 2. Fill First Name and Postal Code. 3. Type "Khan" into Last Name. 4. Click Continue.
Expected result	Last Name accepts text; if empty, "Last Name is required" blocks the form.
Actual result	Last Name stays empty (TypeError in console on each key) yet Continue opens the overview without a last name.
Oracle (why this is a bug)	Two rules broken: inputs must accept text, and the required-field rule enforced for other users is skipped.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Negative testing, Console/log analysis

Screenshot evidence

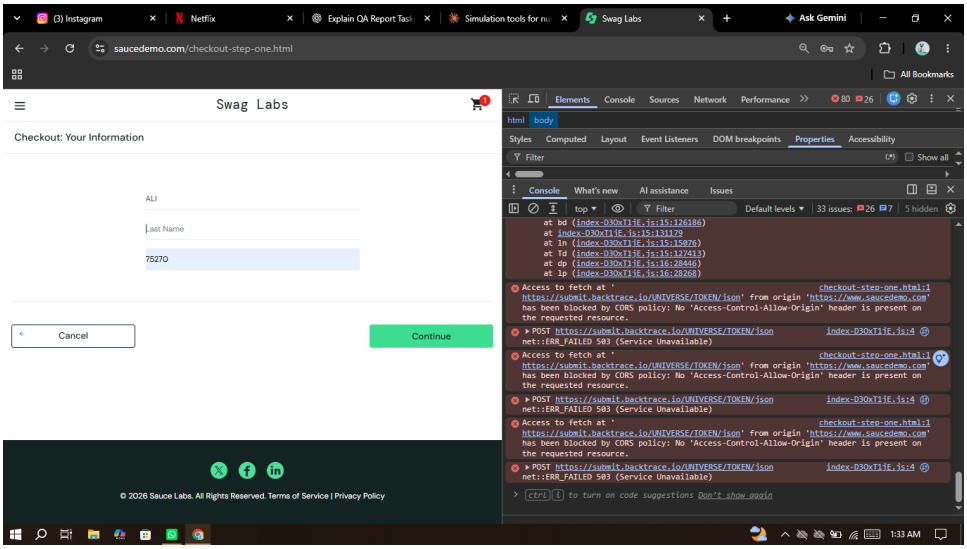

Figure SD-BUG-021: Empty Last Name field, console TypeError, overview page.

SD-BUG-022: Finish button does not complete the order

Defect ID	SD-BUG-022
Title	Finish button does not complete the order

Module	Inventory / Performance
Severity	High
Priority	Medium
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	performance_glitch_user
Related test case	EX-15
Preconditions	DevTools Performance or a stopwatch.
Steps to reproduce	1. Log in as performance_glitch_user and time until products appear. 2. Change sort order and time again. 3. Repeat 3 times.
Expected result	Page responds in about 1-2 seconds (standard_user is near-instant).
Actual result	About 5 seconds of frozen, unresponsive page each time (main thread blocked).
Oracle (why this is a bug)	Performance comparison oracle with standard_user and common web guidance that responses over ~1 s interrupt the user's flow.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Performance observation, Comparison testing

Screenshot evidence

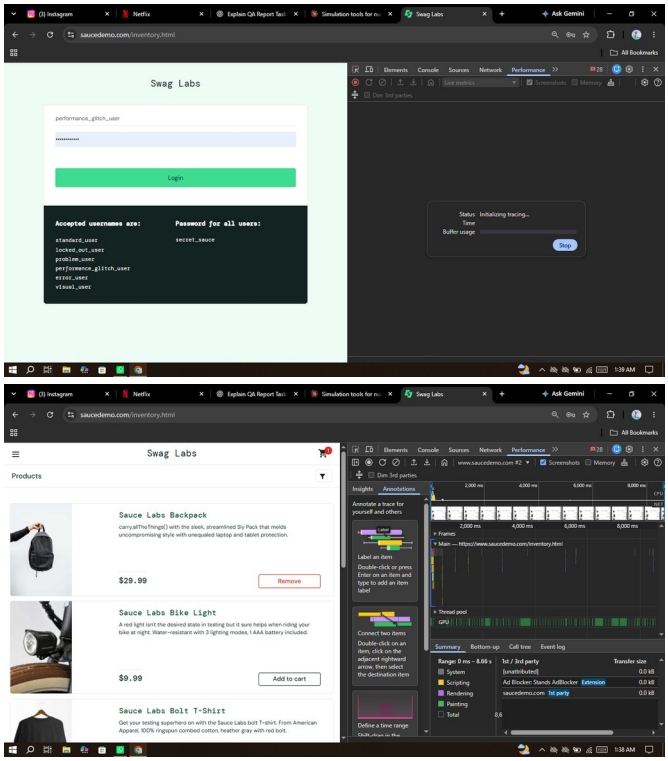

Figure SD-BUG-024: Page frozen while logging in, and the Performance recording after load.

SD-BUG-025: Inventory shows random prices that change on refresh and differ from the product page

Defect ID	SD-BUG-025
Title	Inventory shows random prices that change on refresh and differ from the product page
Project / Application	SauceDemo (Swag Labs)
Module	Inventory
Severity	Critical
Priority	High
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	visual_user
Related test case	EX-16
Preconditions	Logged in as visual_user.
Steps to reproduce	1. Note the price of Sauce Labs Backpack on the products page. 2. Refresh the page (F5) twice, noting the price each time. 3. Click Sauce Labs Backpack to open its detail page.
Expected result	Price is $29.99 on every page and after every refresh.
Actual result	Products page showed $79.19, then $15.44 after refresh (Bike Light $88.82, then $4.94). The Backpack detail page shows $29.99.
Oracle (why this is a bug)	Price consistency is a business-critical rule: the advertised price must equal the charged price.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	UI testing, Comparison testing

Screenshot evidence

SD-BUG-026: First product shows the wrong image

Defect ID	SD-BUG-026
Title	First product shows the wrong image
Project / Application	SauceDemo (Swag Labs)
Module	Inventory
Severity	Medium
Priority	Low
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	visual_user
Related test case	EX-17
Preconditions	Logged in as visual_user.
Steps to reproduce	1. Look at the first product image (Sauce Labs Backpack in A-Z order).
Expected result	Backpack image.
Actual result	Dog image is shown.
Oracle (why this is a bug)	Comparison with standard_user.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	UI testing

Screenshot evidence

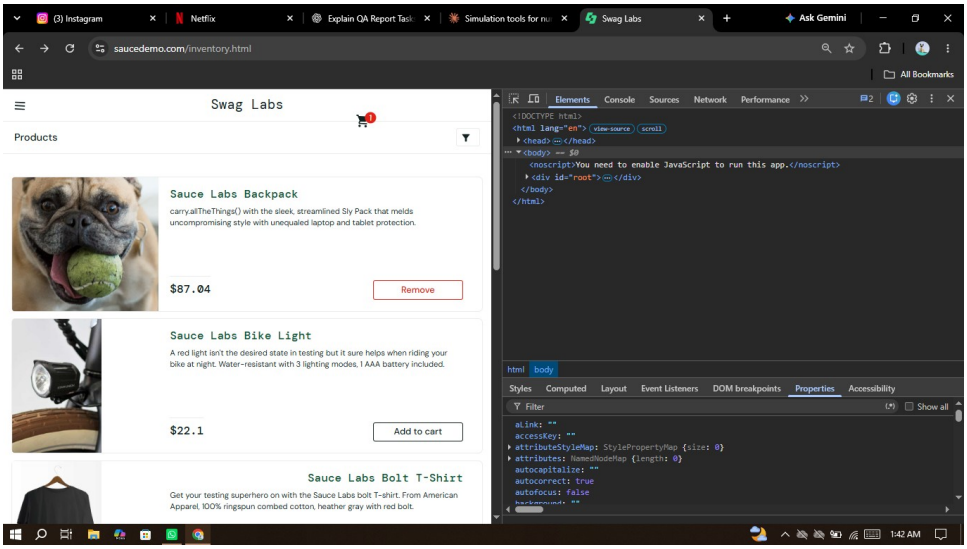

Figure SD-BUG-026: First product card.

SD-BUG-027: Header icons and product controls are misaligned

Defect ID	SD-BUG-027
Title	Header icons and product controls are misaligned
Project / Application	SauceDemo (Swag Labs)
Module	Inventory / Header
Severity	Low
Priority	Low
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	visual_user
Related test case	EX-18
Preconditions	Logged in as visual_user.
Steps to reproduce	1. Compare the header and product grid with standard_user side by side.
Expected result	Same layout as standard_user.
Actual result	Cart icon is displaced, the menu icon is styled differently, some product names/prices are right-aligned and the last product's Add to cart button is out of line.
Oracle (why this is a bug)	Visual consistency with the rest of the application.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	UI testing, Visual comparison

Screenshot evidence

SD-BUG-028: Phantom item in cart makes the checkout overview fail to render

Defect ID	SD-BUG-028
Title	Phantom item in cart makes the checkout overview fail to render
Project / Application	SauceDemo (Swag Labs)
Module	Checkout - Overview
Severity	High
Priority	High
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	standard_user
Related test case	EX-20
Preconditions	Logged in, cart empty.
Steps to reproduce	1. Open inventory-item.html?id=6 and click Add to cart (see SD-BUG-005). 2. Open cart and click Checkout. 3. Fill valid details and click Continue.
Expected result	Either the invalid item is never in the cart, or checkout handles it gracefully.
Actual result	Checkout: Overview page is blank / fails to load; console shows a TypeError reading 'price' of undefined.
Oracle (why this is a bug)	A page must never crash because of cart data the application itself allowed.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Error guessing, Exploratory testing

Screenshot evidence

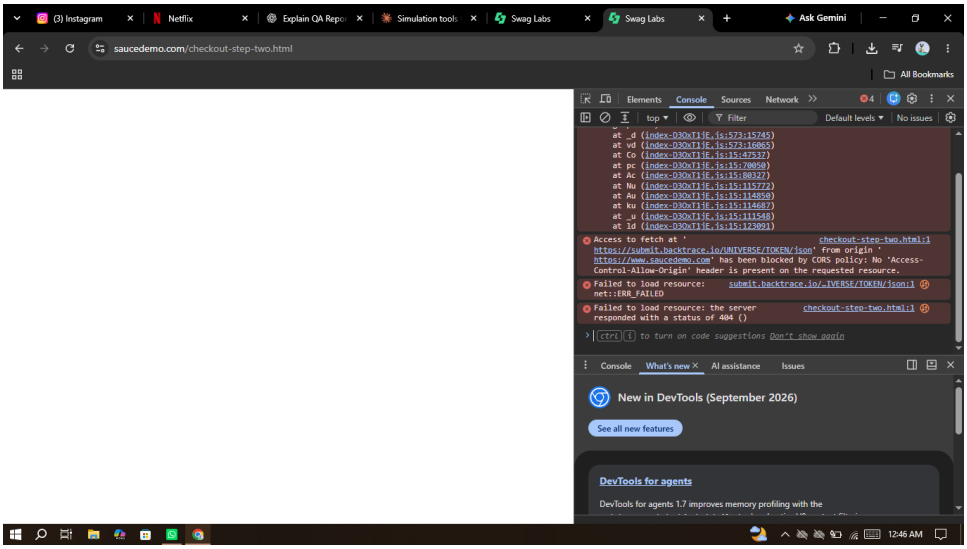

Figure SD-BUG-028: Blank overview with console error.

SD-BUG-029: Product name uses developer/test text "Test.allTheThings() T-Shirt (Red)"

Defect ID	SD-BUG-029
Title	Product name uses developer/test text "Test.allTheThings() T-Shirt (Red)"
Project / Application	SauceDemo (Swag Labs)
Module	Inventory - Content
Severity	Low
Priority	Low
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	All accounts
Related test case	TC-018
Preconditions	Logged in.
Steps to reproduce	1. Look at product names on the inventory page.
Expected result	Customer-facing product name (e.g. "Sauce Labs T-Shirt (Red)") consistent with other products.
Actual result	Name contains code syntax "Test.allTheThings()".
Oracle (why this is a bug)	Consistency with the naming pattern of the other five products.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	UI/content review

Screenshot evidence

Figure SD-BUG-029: Product card.

SD-BUG-030: Login inputs have no labels (placeholder text only)

Defect ID	SD-BUG-030
Title	Login inputs have no labels (placeholder text only)
Project / Application	SauceDemo (Swag Labs)
Module	Login - Accessibility
Severity	Low
Priority	Low
Status	New
Date found	07 Oct 2026
Detected by	Malaika Fatima
Environment	Windows 10 (64-bit); Google Chrome Version 155.0.8059.40 (Official Build) (64-bit); 1920 x 1080 at 100% scaling; https://www.saucedemo.com/
Test account	N/A (logged out)
Related test case	TC-015A
Preconditions	Login page open; DevTools Elements.
Steps to reproduce	1. Inspect the Username and Password inputs. 2. Type in a field and see the placeholder disappear.
Expected result	Each input has a visible or programmatic <label> (WCAG 2.1 SC 1.3.1 and 3.3.2).
Actual result	Only placeholder text; it disappears while typing; no <label> elements exist.
Oracle (why this is a bug)	WCAG 2.1 success criteria 1.3.1 Info and Relationships and 3.3.2 Labels or Instructions.
Reproducibility	3 of 3 attempts (re-verified in Session 3)
Testing technique	Accessibility testing

Screenshot evidence

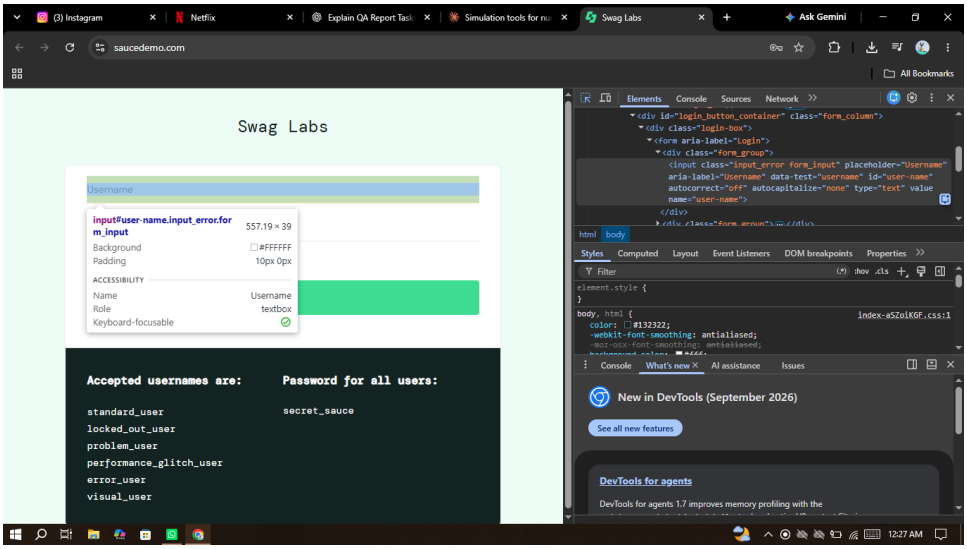

Figure SD-BUG-030: Elements panel showing inputs without labels.

Appendix A - Features List of the Application

- Login with six demo accounts and error messages (required fields, invalid credentials, locked-out user)
- Product inventory: 6 products with image, name, description, price and Add to cart / Remove
- Product sorting: Name A-Z, Name Z-A, Price low-high, Price high-low
- Product detail page with Back to products
- Burger menu: All Items, About, Logout, Reset App State
- Shopping cart with badge count, Remove, Continue Shopping, Checkout
- Checkout step 1: First Name, Last Name, Postal Code with required-field validation
- Checkout step 2: overview with item total, tax (8%) and total; Cancel and Finish
- Checkout complete page with Back Home and Generate PDF order
- Session handling via cookie and protected pages (redirect to login)
- Footer social links (Twitter/X, Facebook, LinkedIn) and copyright
- Responsive layout for narrow screens

Appendix B - Tools Used

Tool	Purpose
Google Chrome 155.0.8059.40	Manual test execution
Chrome DevTools - Elements	Inspecting inputs (maxlength, labels, values)
Chrome DevTools - Console	Capturing JavaScript errors (error_user, phantom item)
Chrome DevTools - Application	Session cookie expiry and cart localStorage
Chrome DevTools - Performance	Measuring the performance_glitch_user freeze
Chrome DevTools - Device toolbar	Responsive testing at 375 x 667
Windows Snipping Tool	Screenshots
Stopwatch (phone)	Timing session expiry and slow loads
Microsoft Excel	Test execution log
Microsoft Word	Report and PDF export

Appendix C - Testing Techniques Used

Technique	How it was applied	Test cases / bugs
Functional testing	Verified each feature against its visible purpose	TC-001-TC-080, BUG-011-014, 018-020
Positive testing	Valid credentials and valid checkout data	TC-001, TC-062, TC-077
Negative testing	Invalid credentials, missing fields, invalid input	TC-002-TC-006, TC-058-TC-069
Boundary value analysis	Empty cart (0 items), 300-character inputs, product ID just past the last valid ID	BUG-001, 004, 005
Equivalence partitioning	Valid/invalid classes for names, postal codes, whitespace	BUG-002, 003
Decision table testing	Combinations of filled/empty/invalid checkout fields	TC-058-TC-069
State transition testing	Login/logout, cart add/remove/reset, checkout steps	BUG-006, 007, 008, 017
End-to-end testing	Full purchase flow per account	TC-077, BUG-015, 022
Exploratory testing	Unscripted sessions with each special account	EX-01-EX-21
Error guessing	Invalid IDs, phantom cart items	BUG-005, 028
Comparison testing (own technique)	Same steps run as standard_user and a special user; standard_user used as the oracle	BUG-010-027
UI testing	Layout, images, labels, alignment	BUG-010, 025-027, 029
Usability testing	Clarity of messages and flow	TC-014, TC-048
Responsive testing	DevTools device toolbar 375 x 667	TC-096

Technique	How it was applied	Test cases / bugs
Compatibility testing	Chrome 155 on Windows 10 only	All
Performance observation	Timed page response with stopwatch and DevTools	BUG-024
Security / session testing	Forced browsing, logout data, session expiry	BUG-007, 008, 009
Accessibility testing	Keyboard navigation, focus, labels (WCAG 2.1)	TC-099, TC-100, BUG-030
Console / log analysis	Reading Console errors to confirm failures	BUG-020-022, 028
Regression testing	Re-ran every failed case in Session 3	All failed cases

Appendix E - Limitations

Testing was performed only on Chrome 155 / Windows 10 at the resolutions recorded above; results should not be generalised to other browsers or devices. SauceDemo is a demonstration site in which some special accounts are designed to contain faults; these defects are still reported because each one is reproducible and violates an identifiable oracle.
